Sayam Kumar

Data Scientist & AI Engineer

+91 9810734544 | sayamk565@gmail.com | linkedin.com/in/sayam-kumar | sayamalt.github.io/My-Portfolio-Website | Delhi, India
Nationality: Indian | Requires visa sponsorship (EU Blue Card eligible)

PROFILE

Data Scientist with 2+ years' experience in machine learning, predictive analytics, and data visualization across tech, manufacturing, and industrial domains. Skilled in Python, SQL, Power BI, Scikit-Learn, TensorFlow, PyTorch, and cloud platforms (Azure, AWS, GCP). Seeking data science, analytics, and machine learning roles in Europe.

EXPERIENCE

AUG 2026 - PRESENT

HyperPulse AI Private Limited, Noida, Uttar Pradesh, India

Full Stack AI Engineer (ML Focused)

- Cut LLM token costs by 32% and latency by 38% in doForms' AI chatbot (auto-generates customer forms from chat) via prompt/context caching, fast-path routing, low-cost execution paths, model-routing optimization, batch processing, and a pgvector-backed RAG pipeline with structured outputs.
- Built an OCR-based document-ingestion layer on doForms' generation pipeline, enabling form generation directly from uploaded PDFs, scanned images, and Word docs, extending doForms' core product.
- Executed COBOL-to-AUDI legacy data migrations for ampliFi Loyalty Solutions Inc. (credit card loyalty, US banking) via Git Bash scripts across customer/transaction datasets, detecting and resolving data-integrity gaps.
- Ensured PII compliance and financial-data security across migrated ampliFi datasets via Legacy Analyzer COBOL audits; collaborated with UTI and data-migration teams to validate target-platform consistency.

AUG 2023 - NOV 2023

Mechademy Incorporated, Delhi, India

Data Science Intern

- Developed regression-based ML models for tabular client datasets, improving prediction accuracy by 20% and decision-making reliability.
- Designed data-cleaning pipelines processing 50K+ rows/week, improving data quality and cutting preprocessing time by 30%.
- Built an automated EDA module cutting initial analysis time by 40%, accelerating insights and project delivery.
- Implemented an automated analytics pipeline using statistical methods (statsmodels, SciPy) to process 30K+ real-time streaming records/day across dozens of industrial sensors, cutting manual fault-detection effort by ~25% and enabling proactive, reliable analytics.

JUN 2022 - JUL 2023

ExactSpace Technologies Private Limited, Bangalore, Karnataka, India

Data Science Intern

- Developed a time-series forecasting model for boiler oxygen levels, reducing fuel consumption by 18%.
- Built a 92% accurate billet classification model for real-time cobble detection, reducing downtime by 15%.
- Implemented an anomaly detection pipeline analyzing 10K+ logs, improving failure-prediction F1-score by 30% and cutting unplanned downtime.
- Applied particle swarm optimization to cluster 100K+ real-time industrial sensor data points, enabling faster pattern detection across ExactSpace's predictive-maintenance pipelines.

EDUCATION

JAN 2024 - AUG 2025

Humber College, Toronto, ON, Canada

Postgraduate Diploma, Business Insights & Analytics

AUG 2019 - AUG 2023

Guru Gobind Singh Indraprastha University, New Delhi, India

Bachelor of Technology, Computer Science Engineering

SKILLS

Machine Learning & AI: Scikit-Learn, TensorFlow, PyTorch, NLTK, Spacy, Gensim, Statsforecast, LangChain, LangGraph, Llama Index, Classification, Regression, NLP, Clustering, Feature Engineering, Computer Vision, Time Series Forecasting, RAG, Vector Databases, Prompt Engineering, AI Agents, MCP, Claude Code
Programming & Scripting: Python, R, Scala, C, C++, SQL
Data Processing & Libraries: NumPy, Pandas, OpenCV
Databases: MySQL, PostgreSQL, MongoDB, SQL Server
Data Engineering & Big Data: PySpark, Hive, Hadoop, Databricks, Slowly Changing Dimensions (SCDs), Apache Kafka
Cloud & MLOps: Azure (ADF, Synapse), AWS (S3, EC2), GCP (BigQuery), MLFlow, Docker, CI/CD, Flask, Django, Streamlit, FastAPI
Data Visualization & Analytics: Power BI, Tableau, Matplotlib, Seaborn, ggplot2, Plotly, Data Storytelling, Dashboard Design, Statistical Modelling, Causal Inference, A/B Testing, KPI Tracking

LANGUAGES

English: C1 **Hindi**: C2 **German**: A1

CERTIFICATES & COURSES

- **Google Data Analytics Professional Certificate**, Google
- **IBM Data Analyst Professional Certificate**, IBM
- **IBM Data Science Professional Certificate**, IBM
- **Statistics with Python Specialization**, University of Michigan
- **IBM Applied Data Science Specialization**, IBM

PUBLICATIONS

- **Fake Reviews Filtering System using Supervised Machine Learning**, IEEE ICDSIS (2022)
